RESEARCH EXPERIENCE

Loss, Trauma, and Emotion Lab, Teachers College, Columbia University 2025 – 2026
Research Assistant (PI: Dr. George Bonanno)

- Conducted baseline and LOTTS Transition Interviews with civilian and veteran participants in an ecological momentary assessment study of emotion regulation flexibility and psychopathology; coded and transcribed interview and daily audio data using Jupyter Notebook
- Screened studies and extracted effect sizes for a meta-analysis on emotion regulation, cultural factors, and psychological adjustment (PI: Dr. Mark Chen)

Anxiety and Mood Program, Montefiore Medical Center 2024 – 2025
Research Assistant (PI: Dr. Sandy Pimentel)

- Conducted literature reviews on anxiety and mood disorders to support manuscripts and clinical care
- Reviewed grant materials and existing clinical services to inform planning for the *Justice Innovation for Bronx Youth Program*, an alternative-to-incarceration initiative for justice-involved adolescents with mental health needs

Before and After Baby Lab, Yale Child Study Center 2023 – 2024
Postgraduate Research Assistant (PI: Dr. Helena Rutherford)

- Managed a longitudinal NICHD-funded study of maternal risk, maternal sensitivity, and infant attachment in African American and European American families; wrote standard operating procedures for six study visits and built EEG paradigms (E-Prime) and Qualtrics surveys
- Administered EEG, the Bayley-III, the MINI, and the Attachment Script Assessment (ASA) across studies of maternal nicotine dependence and opioid use disorder; preprocessed EEG data in Net Station; trained to code the ASA
- Built community recruitment partnerships with hospitals, clinics, and prenatal programs, and trained new research assistants

Yale Child Study Center, Yale University 2022 – 2023
Graduate Research Assistant (Advisor: Dr. Amanda Lowell)

- Led a master's research project on maternal childhood trauma, caregiving behavior, and child cognitive development in families affected by substance use, from hypotheses through multiple imputation and PROCESS analyses in SPSS (published in *American Journal of Orthopsychiatry*)
- Coded Parent Development Interviews in NVivo for a mixed-methods study of reflective functioning among mothers in substance use treatment
- Recruited and screened participants, administered EEG, and managed REDCap data for a study of neural change in mothers with opioid use disorder receiving the *Mothering from the Inside Out* intervention

Emotion Development Lab, Boston College 2019 – 2020
Research Assistant (Advisor: Dr. James Russell)

- Contributed to protocol development, recruitment, data collection (including at the Boston Children's Museum), and analyses for studies of children's emotion recognition
